THE PROBLEM WE SOLVE

Schools are juggling 5 vendors. Teachers are juggling 5 logins.

A typical school today runs on a patchwork: an ERP for fees, a separate LMS for content, an attendance app, an exam tool, a biometric vendor, and a transport tracker. Each charges per-module, per-student, or per-year. Each has its own login, its own data silo, its own outage window.

The cost isn't just licence fees — it's the 10 hours a week every teacher loses to context-switching, manual data entry, and re-typing the same student record into four different systems.

TYPICAL SCHOOL STACK

School ERP	Vendor A
LMS / content	Vendor B
Biometric attendance	Vendor C
Exam / report cards	Vendor D
Transport / GPS	Vendor E

5 logins · 5 invoices · 5 SLAs

OUR ANSWER

Replace the entire stack with one elegantly designed platform — built AI-first, not retrofitted.

THE PLATFORM

One platform. Twenty-plus modules.

Everything a modern school needs — from a parent paying fees on Monday to a camera marking attendance on Wednesday — runs on the same elegant system, with one student record at the centre.

SCHOOL OPERATIONS

- Admissions & enquiry
- Fees & invoicing
- HR & payroll
- Library
- Transport & hostel
- Real-time reports

ACADEMICS

- Class & section setup
- Timetables
- Examinations
- Report cards (multi-board)
- Promotion & rollover
- Parent portal

CORTEX AI STUDIO

- Chapter generator
- 150k question bank
- Assessment Creator
- AI Evaluator
- Lesson plans
- Cortex Helper bot

ATTENDANCE & SAFETY

- Face AI attendance
- Default-absent policy
- Period-wise tracking
- Auto reports
- Visitor logs

COMMUNICATION

- Notice board
- Parent messaging
- Email & SMS templates
- Multi-language
- Event calendar

FOUNDATIONS

- Multi-tenant secure
- Role-based access
- Audit logs
- Data export anytime
- Daily backups

THE FLAGSHIP

Cortex writes the curriculum. Teachers do the teaching.

Cortex AI Studio is what makes AlvenX different. It generates curriculum-aligned chapters, assembles exam papers from a 150,000-question bank, grades handwritten answer sheets, and writes lesson plans — in seconds, not hours.

Chapter Generator

Pick subject, grade, and topic. Cortex produces a board-aligned chapter in four learning modes: **Focus** (clear & structured), **Spark** (engaging analogies), **Quest** (gamified), and **Saga** (narrative). Diagrams, exercises, and answer keys included.

Assessment Creator

Build exam papers from a 150,000+ question bank. Filter by chapter, difficulty, Bloom level, and marks. CBSE-standard section presets included. Live coverage preview before you commit.

AI Evaluator

Upload scanned answer sheets. Cortex grades handwritten responses, flags borderline answers for teacher review, and exports a marks sheet ready for the gradebook.

Cortex Helper + Study Mode

A built-in AI guide on every page (powered by our mascot, Leo). Helper answers product questions; Study mode tutors students through chapters with context-aware Q&A.

Time saved per teacher per week: ~10 hours. Lesson prep, paper-setting, and grading collapse from days into minutes.

ATTENDANCE, REINVENTED

Face AI replaces the biometric machine.

A single webcam at the classroom door — or a tablet at the gate — marks every student present in under a second. No fingerprint queues, no proxy attendance, no missed entries.

How it works

1. Enrol once. Capture 3-5 photos of each student during admission. Embeddings are stored, photos are not.

2. Recognise live. The classroom camera streams frames. Cortex matches faces in real time and writes attendance to the gradebook.

3. Default-absent policy. Anyone not seen by the cut-off is automatically marked absent. Parents get an SMS.

4. Period-wise tracking. Same logic for every period — absconding mid-day is detected too.

WHY IT MATTERS

- ✓ Zero teacher time spent on roll-call
- ✓ Proxy-proof — no impersonation
- ✓ Hardware-free — uses any webcam
- ✓ Privacy-first — only embeddings stored
- ✓ Works offline-first; syncs when online

REAL-WORLD IMPACT

A 1,000-student school saves ~250 staff-hours per term on attendance alone — and gets fully audited records in return.

BUILT FOR WORLD-CLASS SCHOOLS

Curriculum-aligned out of the box.

Whether you run an IB World School in Mumbai or a CBSE chain across five states, AIvenX understands your syllabus, grading scale, and report-card format from day one.

INTERNATIONAL

IB · CAIE · AP

Full support for IB PYP / MYP / DP, Cambridge IGCSE & A-Levels, and Advanced Placement. Inquiry-based templates, portfolio rubrics, and DP point conversion built in.

INDIAN

CBSE · ICSE · ISC · State · NIOS

Native support for CBSE, ICSE/ISC, all major State Boards, and NIOS. Term-wise scholastic + co-scholastic report cards, skill grades, and CCE patterns ready out of the box.

IB (PYP · MYP · DP) | CBSE | ICSE / ISC | Cambridge (CAIE) | Advanced Placement | State Boards | NIOS

Don't see yours? Cortex AI adapts to any framework — talk to us and we'll have your school live in 14 days.

EDITIONS

Pick the edition that fits your school.

Three editions, one platform. All editions are multi-tenant secure, GDPR-aligned, and include role-based access for admin, principal, teacher, student, and parent.

STARTER

Operate

For schools moving off spreadsheets. Replace the ERP first.

- ✓ Admissions & fees
- ✓ HR & payroll
- ✓ Timetable & exams
- ✓ Report cards
- ✓ Parent portal
- ✓ Email support

MOST POPULAR

PRO

Operate + Cortex

Add the AI Studio. Save teachers 10 hours a week.

- ✓ Everything in Operate
- ✓ Cortex Chapter Generator
- ✓ 150k Question Bank
- ✓ Assessment Creator
- ✓ Lesson plans
- ✓ Phone + email support

ENTERPRISE

Everything

For multi-campus chains and IB / international schools.

- ✓ Everything in Pro
- ✓ AI Evaluator
- ✓ Face AI Attendance
- ✓ Teacher Assist (2026)
- ✓ Student Surveillance (2026)
- ✓ Priority + dedicated CSM

Pricing scales with student count and edition.

Email sales@aivenx.co.in for a quote tailored to your school.

WHAT'S NEXT

Already on the way.

Teacher Assist

Every published chapter automatically gets a slide-by-slide presentation deck — speaker notes, embedded diagrams, and discussion prompts, all built in.

SHIPPING H2 2026

Student Surveillance

Live GPS on every bus. Boarding/alighting verification. Parent ETA. Panic button that escalates to admin, guardians, and (optionally) local authorities.

SHIPPING H2 2026
